WOMEN MAKE PLANS FOR GOLF TOURNEY

Feminine Enthusiasts Practice Every Day for Big Event at Field Club Next Week.

ATTRACTIVE PRIZES GIVEN

By MELLIFICIA—July 20.

You can't talk anything but golf this week to the woman golfers of Country, Field, Happy Hollow, Seymour Lake, Prettiest Mile and Council Bluffs Boat clubs.

The reason? Well, the woman golfers' state championship tournament is to be held at the Field club next week and all the lady "golfers" are getting in trim for the big event.

"I'm so badly sun-burned my friends don't recognize me and I've been poisoned by my so badly my life's miserable," wailed one enthusiastic golfer, who didn't miss a day's practice during the hot spell all of last week.

To cap the climax, I'm playing such a poor game during practice, I suppose I'll be out of the game, altogether next week.

Another former golf champion expressed the opinion that she was a "down-and-out," but her friends are betting that she will "come back" at this tournament.

Mrs. L. M. Lord, president of the Omaha Women Golfers' association, which will be hostess for the state meet; Mrs. Allen Farmer and Mrs. Walter Silver have the affair in charge. Do You Know?

- 1. That the best scale is the hanging "pan" type, and not the scale where iron weights are adjusted by hand?
2. That you should always look for the stamped number of bushels, quarts, etc., on the basket or barrel of food you buy?
3. That you should insist on the dealer placing an identical wooden butter container on the opposite side of the scale from that on which he weighs your butter? These wooden containers are edged with tin, and

4. That you should try to have your dealer charge you less when you carry home the package yourself? Some stores charge only 8 cents a dozen for rolls if you take them home, while they cost 10 cents a dozen to your lazier neighbor? Why should you pay for unrendered service?

5. That you should look at the strawberry box, the peach basket and the potato sack of your particular dealer? These may contain false devices, which will make them "short" several ounces or even pounds.

6. That oil cans and glass bottles are particularly apt to have a false "bottom"? Has yours?

7. That these products should contain these definite amount of pounds to the bushel:

Onions.....52
Potatoes, Irish.....54
Potatoes, sweet.....54
Carrots.....50

8. That you should never ask for "10 cents worth" of potatoes, a "package" of cereal, a "pail" of lard? Ask for a definite amount, as one quart of potatoes, three pounds of oatmeal, two pounds of lard.

9. That you should not talk to your dealer when he is weighing articles? If he is honest you may cause him to read incorrectly, and if he is dishonest, he will try to talk to you in order to divert your attention.

10. That you should ask your ice man what is the cost of ice per 100 pounds, then request him to leave so many pounds and not merely a "10-cent piece."

11. That you as a housekeeper can control the honesty of the weight and measures you buy. Insist on certified scales, read your state laws of weights and measures; report dishonest dealers, and co-operate with those who are trying to give you a square deal—Philadelphia Ledger.

Fine French Perfumes Now Sold in Ordinary Bottles

(Correspondence of The Associated Press.)

Paris, July 23.—Fine French perfumes are now being sold in ordinary druggists' vials, corked, instead of in artistic flacons with glass stoppers. This crisis is due to mobilization of glass workers in the north of France, and one of its revelations is that the art flacon has been representing a considerable part of the cost of the perfumes. But among fastidious women, the perfumes do not smell so sweet when prosaically presented, and a result is a new industry—that of collecting old perfume bottles into which the essences may be transferred.

Thirty Thousand to Be Spent on New Boulevard

The city council approved the appraisers' report in the sum of \$32,616 for the new boulevard which will connect Fontenelle park with the Happy Hollow boulevard.

Worth Knowing.

Ink spots will come out absolutely if they are soaked in milk before washing. Immerse the spot and allow it to soak until it disappears.

If a piece of waxed paper is placed under the centerpiece on a polished table, it will prevent the linen from adhering to the table in hot weather, as well as prevent a stain from cold water or an overfilled vase or rose bowl.

It is best not to have carpet on the bedroom floors; use rugs instead. These can be easily cleaned.

Make sure that the pudding is kept boiling all the time. If it is allowed to go off the boil it will be heavy.

When shutting up a house for a long time, pack the silver in dry flour and keep forks, knives and spoons together, arranging in layers with flour between. The silver will remain perfectly bright and un tarnished.

Biggest Natural Bridge in World. The biggest natural bridge in the world is to be found in the United States. The largest of these, the Rainbow, 385 feet high, would span the dome of the United States capitol, with room to spare, and is nearly as high as the Flatiron building in New York. Its span is six times as great as that of the natural bridge of Virginia. Utah alone has three natural bridges that are higher and stronger than any other natural bridges in the world.—National Geographic Magazine.

NATIONAL CREDIT BUREAU FOR OMAHA

Exchange to Serve Every City in the Country May Be Established in This City.

TO COME UP AT MEETING

A national credit bureau where the retailers all over the country will be able to get information as to the credit standing of any of their customers or prospective customers who seek credit may eventually be established in Omaha.

Every town of any considerable size now has a credit bureau, either independent or in connection with the retail association, as is the case in Omaha. This bureau keeps a card index of the persons in the city who do a credit business and a record of how promptly they pay their bills or whether they pay them at all.

This gives an excellent information service to the retailers in any one town with regard to the credit buyers in that town, but they are at a loss for information on any new man who may come in from another city and desire credit.

Reports From Each City.

For this reason it is proposed to establish a national credit bureau, or rather a kind of credit exchange for the whole country. The idea is that all associations in the big cities should report all the cards in their file to this central exchange all the time, keeping them up to date. Then when a family moves to Omaha from Chicago and asks credit at a half dozen of the stores at once, it may be found by referring to the files of this national exchange just how well this family kept its bills paid up in Chicago.

This will facilitate matters at once, and if the credit of the family was good in Chicago, Omaha concerns will at once extend them credit here without further red tape. Again, if the family was lax about paying bills in Chicago, or left bills unpaid there, the card index in the central exchange should show that fact, so that local retailers could be wary in extending them credit.

Officials of the National Retail Credit Men's association, which is to meet in Omaha in August, are quietly working out tentative plans for the establishment of such a central exchange or bureau. The president of the national association took the matter up with J. W. Metcalfe, secretary of the Associated Retailers of Omaha, when Metcalfe was in St. Louis recently. It was then that the matter of locating such a bureau in Omaha was discussed. Omaha is looked upon as centrally, and therefore favorably located for such a bureau.

Will Carry Out Request of Late President of China

(Correspondence of The Associated Press.)

Peking, July 15.—According to Yuan Shi-kai's deathbed request, his eldest son, Yuan Kuo-ting, and his second and third sons, together with all the daughters and concubines of the lamented president, will return to his native village of Changteh, in Homan province. The late president also requested that his fourth, fifth, sixth and seventh sons shall be sent to England to be educated under the direction of Yen Hsiu, former minister of education. His next four sons will be entrusted to Hsu Shih-chang, former secretary of state.

According to old Chinese customs and practices, the family and the kinsmen of the late president, offered sacrifices to the spirit of the deceased. Among the things sacrificed were paper lanterns, carriages, automobiles and images of maid-servants and man-servants. And in order to quiet the departed soul of the late chief executive of Lamas and Taoists were called to chant in the shades large numbers chanted prayers in the presence of his remains. Telegrams from rulers of the various treaty powers expressing their condolences to the family of the late Chinese president were put in frames and hung up in front of Hui-jen-tang, where the coffin is lying in state. From morning to evening government officials in the metropolis offered their sacrifices and paid their respects by bowing down three times to the deceased without prostration.

Mrs. Mary Myers, Pioneer Omahan, Is Called By Death

Mrs. Mary J. Myers, a pioneer of Omaha, died Wednesday after a long illness. She was the widow of Henry B. Myers, who died many years ago. Mrs. Myers was born in Mercerburg, Pa., March 18, 1835. She married in 1867 and came to Omaha the same year.

Her first residence in this city was the house which afterward became the John I. Redick home on North Twenty-fourth street, now the University of Omaha.

The big maple trees around the building were planted by her husband.

Two sons, Charles S. and H. Clarence Myers, survive her.

Mrs. Myers was the oldest member of the First Presbyterian church living in Omaha till the day of her death. She joined the First Presbyterian church January 9, 1868.

Suggests Way of Saving Sailors From Drowning

(Correspondence of The Associated Press.)

London, July 23.—That warships should be held in readiness at ports of the North Sea to guard against a repetition of the large and unnecessary loss of sailors by drowning during such a naval battle as that off Jutland, is the suggestion of the Norwegian newspaper, Morgenbladet.

The newspaper points out that physicians examining several of the German and British sailors washed ashore after the battle declared that the men could have been saved had they been picked up, twenty-four hours earlier.

The proposal is made that the Scandinavian government should open negotiations with both the British and German governments looking to the adoption of such measures as proposed for the saving of life after future engagements. The paper suggests that warships for rescue purposes be held in readiness at Christiansana, Gothenburg and Frederikshaven.

Don't Let Soap Spoil Your Hair

When you wash your hair, be careful what you use. Most soaps and prepared shampoos contain too much alkali, which is very injurious, as it dries the scalp and makes the hair brittle.

The best thing to use is just plain mulletted coconut oil, for this is pure and entirely greaseless. It's very cheap, and beats the most expensive soaps or anything else all to pieces. You can get this at any drug store, and a few ounces will last the whole family for months.

Simply moisten the hair with water and rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly and evenly, and is soft, fresh looking, bright, fluffy, wavy and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff.—Advertisement.

The Bee's Fund for Free Milk and Ice

"This isn't much, but what there is will help some hungry little kiddie to grow as fat as a butter-ball. I'm sending it, love also, from the heart of, 'A FRIEND.'

That is one little note that comes to The Bee with 50 cents for the milk and ice fund.

Others send or bring checks and bills. The fund grows. The nurses use it carefully for the deserving "kiddies" of the very poor, who would have a losing fight for life if it weren't for these kind-hearted contributors.

Won't YOU participate in this good work? Every cent you give will buy milk or ice for some POOR and DESERVING family.

Pat Boyle, Veteran Printer, May Not Survive the Day

Pat Boyle, veteran Omaha printer, is critically ill at his home, 1228 South Eleventh street, and may not survive the day.

Boyle suffered a physical breakdown some months ago, and has been growing weaker ever since.

He is well known all over the west and south, having worked in Memphis, Kansas City, St. Louis and other cities. For the last eight years he has been employed on an Omaha newspaper.

For years Boyle was a close follower of the "dope" on the racing tracks, and he is considered one of the best posted men in Omaha on the records of the old-time jockeys and horses.

Mercury Drops to 64 During Night

"For this relief, much thanks," was the feeling of Omaha toward the elements that brought coolness Wednesday. The thermometer didn't get above 84 degrees and it reached a minimum of 64 during the night.

Yesterday it was 79 degrees at noon, comparing with 75 degrees at noon Wednesday.

The highest temperature in the state Wednesday was at Culbertson, 90 degrees. At North Loup, Broken Bow and Columbus, the mercury touched 89 degrees.

The minimum was reached at North Loup, which almost shivered, with only 51 degrees during the night.

An oddity of the country's weather was that at Montreal, Canada, the temperature at 7 a. m. was 80 degrees, while "way down south, among the fields of cotton," at New Orleans, it was only 76 degrees.

There were heavy rains in some parts of the country. Cedar Rapids, Ia., for example, had more than four inches. Oklahoma City had 2.86 inches; Chicago, 1.12 inches.

Sues Jitney Bus Pilot For Personal Injuries

Guy B. Conn has brought suit against Vernon L. Hankins, proprietor of a jitney bus, and Hankins' surety, the Georgia Casualty company, for \$2,500 damages for personal injuries.

Conn claims that on March 6 he was working on a scaffolding on the First National bank building at Sixteenth and Farnam streets when Hankins' jitney struck one of the props of the scaffolding, precipitating him to the pavement.

Service That is Appreciated

That my plan of business is appreciated is proven by the hundreds of patients who have been to my office. Many men and women are coming to me daily or weekly for medicine or treatment. Fully one-half of these cases are people from outside of Omaha, and the kind words they say about my cash but small fee plan is pleasant to hear. I have no sure cures, or bargains, or contracts to get you to me, and I do not have a company of young doctors doing my work for me, or solicitors out over the state, as some Omaha doctors of BUSINESS IS ON ITS MERITS. My results I will fail or succeed. I TREAT ALL CLASSES OF DISEASE, no matter what kind or how long it has been with you, and I will charge you about half of what other doctors charge. I can afford to do so, as I have no bad accounts, as my business is strictly cash. I offer you honest service based on about twenty years of active experience. You who have been fleeced by the contract doctors are asked to call and learn what honest cash business can do. SPECIAL ATTENTION GIVEN DISEASES AND DISORDERS OF WOMEN. Consultation \$1.00. Examination or office treatment \$2.00. I furnish medicine without extra charge. No drug store bills.

EDWARD BAILER IS MUCHLY STUNG MAN

He and His Have Been Stung So Much He Seeks Injunction in Court.

FIRST ACTION OF KIND

Edward L. Bailer says he has been stung. He further says that his family has been stung, and as a result no longer visit him with the freedom they formerly did, believing that one stinging is enough.

In addition, avers Mr. Bailer, his friends and neighbors who visited him have been stung, and as a result no longer visit him with the freedom they formerly did, believing that one stinging is enough.

He claims his cows have been stung so often that they no longer give their customary yield of milk, and he has been materially damaged thereby, inasmuch as he operates a dairy.

Accordingly, Mr. Bailer has filed the first action of its kind ever brought into the Douglas county courts, so far as the memory of the attorneys runs. He wants an injunction so that he, his family, his neighbors and his kin shall be stung no more.

Neighbor An Apiarist.

Bailor lives at Fifty-seventh and Woolworth, where he operates a small farm and dairy. His neighbor, Albert G. Knight, has an adjoining property. Mr. Knight is an apiarist—that is, he owns several flocks of bees. These are hived, so avers Bailer, just twelve feet outside of the line of the Bailer property. Mr. Bailer also has four acres of grapes and says that the bees, in season, infest his vineyard and damage much fruit.

The bees are naughty bees, Mr. Bailer says in his plaint.

"Said bees have a sting annoying and dangerous to man or beast, even without being annoyed or disturbed," he challenges.

"Said bees come around house and home of plaintiff, and as a result plaintiff and his family are compelled to stay in the house," he further complains.

Mr
